

Routine dental visits are recommended for all individuals. For athletes who do not currently have a dentist, a list of community health centers and hospital-based dental clinics (indicated by asterisks) is provided below for your convenience. Oral sedation and general anesthesia is typically available at hospital-based dental clinics. Private practice dentists are not included in this directory at this time; you can find an American Dental Association member dentist in your area online at FindADentist.ADA.org. **DISCLAIMER:** Special Smiles is operated in Connecticut by volunteers from the UConn School of Dental Medicine.
