

Thank you for visiting Special Smiles at Special Olympics Connecticut! Routine visits to a dentist or dental hygienist are recommended for all individuals. For athletes who do not currently have a dentist, a partial list of dentists is provided below for your convenience, particularly community health centers and hospital-based dental clinics (indicated by asterisks); oral sedation and general anesthesia is available at all hospital-based dental clinics. Private practice dentists are not included in this directory at this time; please see below for information on finding a private practitioner. **DISCLAIMER:** Special Smiles is operated in Connecticut by volunteers from the UConn School of Dental Medicine.
